AARON LEITZ: HOMAGE

WINSTON WÄCHTER FINE ART

AARON LEITZ: HOMAGE

The abstract photography of Aaron Leitz's *Homage* series explores color relationships through interpolations and reinventions of Josef Albers' famous 'Homage to the Square' paintings.

Creating photographs directly informed by the materiality of paint, Leitz engages with the supposed 'reality' of the captured image and its constraints; bold, translucent shades of stark colors sit atop each other in pure abstraction, complicating notions of objective representation. Oftentimes appearing slightly coarse in texture, Leitz achieves a vast range of elemental and unorthodox color combinations. The series of work combines the emotional qualities of painting with the technical limitations and inherent qualities of photography.

"I find these unique constraints liberating and ripe for experimentation and by combining abstraction and realism in ways that only a camera can, I hope to create photographs that invite the viewer to reinterpret the familiar in ways that spark curiosity, reflection, and joy. I find these unique constraints liberating and ripe for experimentation and by combining abstraction and realism in ways that only a camera can, I hope to create photographs that invite the viewer to reinterpret the familiar in ways that spark curiosity, reflection, and joy."
